

THIS PROJECT HAS RECEIVED FUNDING FROM THE EUROPEAN UNION'S HORIZON 2020 RESEARCH AND INNOVATION PROGRAMME UNDER GRANT AGREEMENT N° 101018221

# PANACEA THEMATIC NETWORK

HORIZON 2020 Thematic Network on Non-food Crops (NFC)  
[www.panacea-h2020.eu](http://www.panacea-h2020.eu)

## **Welcome to PANACEA project second period!!!**

PANACEA Network aims at the dissemination of near to practice applicable cases of Non-food Crops and at the cooperation between research, industry and farming community, in order to increase the contribution of Non-food Crops to the European Bio-economy Strategy. 3 years project starting, on November 2017, **we are on the go of the second period of this experience!**

PANACEA partners want to thank farmers and non-food crops producers, Bio-based industries community, Operational groups and stakeholders their feedback and contributions to the thematic Network on non-food crops.

PANACEA project as a Thematic Network compiling knowledge ready for practice. PANACEA project has been briefly presented at the value chain events in different EU countries. Similarly, partners advising the farming community have organized open days in order to present the project activities and results at the same time as compiling direct feedback from the relevant actors in the value chain events during this first period of running project.
